

RIGGING FUNDAMENTALS

Presented by Construction & Maintenance Education Foundation

TUESDAY, March 16, 2010
6:00pm to 10:00pm

CMEF Office
2950 East X Street
La Porte TX 77571

COIPA Members: \$50.00
Non-COIPA members: \$75.00

This class is a thorough overview of the basic rigging principles and will prepare one for the NCCER Rigging Fundamentals written assessment. However, this class is NOT submitted to the NCCER and therefore will not be reflected in the NCCER National Registry.

What You'll Learn

1. Identify three types of slings (wire, synthetics, and chain)
2. Understand inspection and rejection criteria (slings and hardware)
3. Understand basic hitches and proper connections
4. Understand how to read capacity chards for slings and hardware
5. Recognize ANSI hand signals
